Overview

XBP Europe offers a comprehensive XBP-SMB platform designed to revolutionise your financial management processes. XBP SMB is a cloud based product targeting Small and Medium business owners to efficiently manage the Invoicing & payment processes of their business activities and provides visibility to the cash flow.

Exchange for Bills & Payments has made the Accounts Payables and Receivables processes efficient by eliminating the cumbersome processing and tracking of paper invoices. Its AI-based Data Capture, User Controls, and Sophisticated Payment Methods make it one of the simplest and best online payment platforms giving greater visibility to your business expenses.

Key Features

End to End Workflow

A XBP-SMB platform helps businesses maintain better relationships with vendors and customers. Timely payments and accurate invoice processing contribute to positive interactions, strengthening partnerships and fostering trust.

Streamlined Processes

A XBP-SMB platform automates manual tasks, such as data entry, invoice processing, and payment approvals with smart AI.

Real-time Financial Insights

The platform provides real-time access to AP and AR ageing data, allowing businesses to monitor their financial health more effectively. Insights into cash flow, outstanding balances, and payment trends enable informed decision-making and proactive financial management.

Audit Trails and Compliance

Ensure transparency and maintain compliance with robust audit trails. Easily track and trace financial transactions, making audits smooth and efficient.

Integration with ERP Systems

Integration with ERP systems centralises financial data, ensuring seamless data flow between different systems. This integration eliminates the need for duplicate data entry, enhances data accuracy, and enables holistic financial management.
