

Liquidity Solutions

Simplifying Invoice Buying and Selling

Simplify liquidity management by using a single, unified system

Get better access to invoice buyers and sellers

Custom-built solution, including white labelling and risk management parameters

Integrated payment processing capabilities increase efficiency

Full process visibility and control streamlines buying and selling

Overview

XBP Europe's P2P platform includes white-label web portals, mobile applications, and websites that enable peer-to-peer invoice buying and selling. Automate and optimise liquidity management to find the best price on invoices you purchase or the best rate for those you sell.

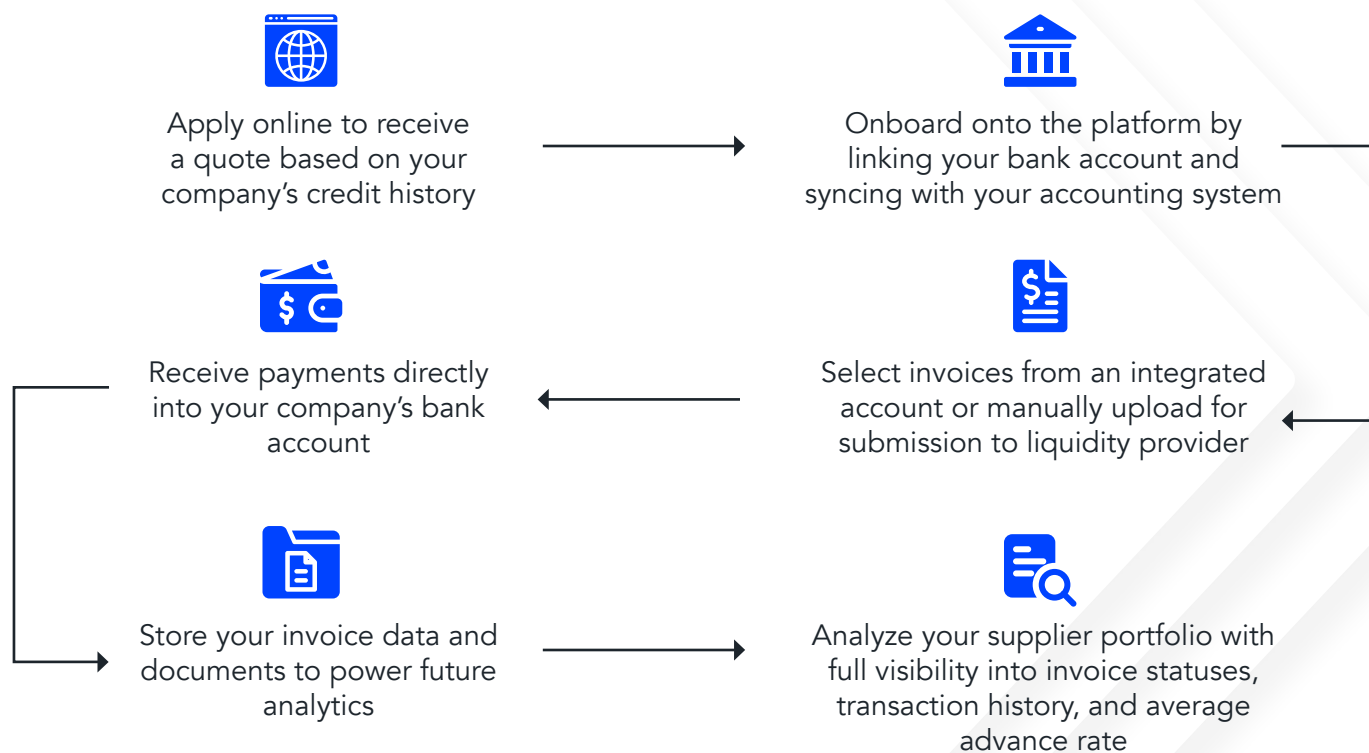

XBP Europe's liquidity web portal offers:

- Automated invoice syncing, verification, and management
- Flexible application design for businesses of any industry, size, or location
- A comprehensive system that accepts invoices in all formats and mediums
- Smart business intelligence and retroactive and predictive credit analysis
- An integrated dashboard with real-time invoice status tracking and dynamic drill down
- A unified liquidity system capable of creating, issuing, tracking, and accepting payments from a computer or mobile device
- Marketing functions that enable you to leverage your existing network of suppliers and gain access to new partnerships

How it works

1. Enrol suppliers after the application and credit review process.
2. Automate the invoice financing process by configuring invoice purchasing rules according to liquidity institution risk preferences.
3. Send advance payments to suppliers and receive invoice payments from debtors according to your routing preferences.
4. Store your invoices, documents, and other data for analysis.
5. Analyse your liquidity portfolio with complete visibility into invoice statuses, historic net yield, and collection rates.

SUPPLIER'S WORKFLOW

About

XBP Europe offers innovative solutions for customers to streamline complex bills and payments processes. We help enterprises, SMBs and public sector organisations globally to rethink transactions, digitisation, operations, communications and remote working. Get in touch today.
